

CHAIRMAN OF THE JOINT CHIEFS OF STAFF INSTRUCTION

Directive Current as of 18 APR 2014

J-4

DISTRIBUTION: A, B, C, JS-LAN, S

CJCSI 4330.01B

30 April 2010

USE OF NATO LOGISTICAL PLANNING FACTORS BY U.S. FORCES

1. Purpose. To establish policy guidance for the United States' use of NATO stockpile planning factors.

2. Cancellation. CJCSI 4330.01A, 1 October 2004, is canceled.

3. Applicability. This instruction applies to all U.S. forces.

4. Policy.

a. The United States accepts NATO Strategic Commander (SC) stockpile planning guidance that falls within the parameters of U.S. doctrine, tactics, and force deployment and logistics support considerations. When NATO SC guidance is in conflict with the stated U.S. policy, the United States will attempt to resolve the disagreement. If a resolution is not possible, the United States will provide appropriate reservation's to the promulgated guidance.

b. NATO SC stockpile planning guidance provides a standard by which NATO commanders can measure and evaluate the logistic capability of their committed national forces. The United States strongly supports the concept of achieving unified guidance for stockpile planning among the nations of the Alliance and the efforts taken by the NATO SC's to resolve the differing national views regarding the various categories of ammunition.

c. The United States will report in the biennial NATO Defense Planning Capability Survey (DPCS) using the NATO SC stockpile planning guidance rates (where they exist and are current). Where the United States reports against a rate other than the NATO SC rate, a footnote in the DPCS will explain the disagreement.

d. U.S. forces will continue to use national rates for the determination of

stockage objectives in support of U.S.-deployed forces and for procurement of materiel and munitions, computations of storage requirements, and other programmatic decisions. The United States should encourage adoption of U.S. methodology in determining planning factors whenever possible.

e. The policy position established herein will be subject to periodic reviews.

5. Summary of Changes. This instruction administratively updates CJCSI 4330.01A, to account for changes to the NATO Defense Planning Process.

6. Releasability. This instruction is approved for public release; distribution is unlimited. DOD components (to include the combatant commands), other federal agencies, and the public, may obtain copies of this instruction through the Internet from the CJCS Directives Home Page--
http://www.dtic.mil/cjcs_directives.

7. Effective Date. This instruction is effective upon receipt.

LLOYD J. AUSTIN III
Lieutenant General, USA
Director, Joint Staff
